Retail Products & Accessories

Harley Ingrown Hair Solution

125ml 🌀

Waxing does not have to lead to skin irritation. We want to change the way clients view waxing and entice new customers who might have skin sensitivity concerns. That's why we have invested in developing another UK made, natural waxing companion product. Packed with plant extracts, Arnica and Allantoin, clients will see a noticeable reduction in bumps and redness.

Harley Pomegranate Sugar Scrub

500ml 🍷

We think about the details. Our oil free formulation will gently exfoliate and moisturise the skin all in one. It leaves no oily residue that can interfere with waxing treatments and lead to blocked pores and ingrown hairs. Therapists and clients alike will love the quality of our new scrub.

Harley Natural Wax Solvent

500ml 🍷

Our citrus based Harley Wax Solvent can be used on any material, clothing, linen, surface or machinery. Our Harley Wax Solvent will not leave any stains or discoloration behind.

Harley Wax Reviews

Both our therapists and discerning clientele have enjoyed the pain free experience of working with the Harley Summer Fruit cartridge and hot wax professional wax range which produces an effective and fabulous result.

- *Yemaya Spa*

I ordered a tester for Harley film wax in lavender and Harley strip wax in summer fruits, both waxes were of fantastic quality and I have decided to switch to them as my suppliers instead of my previous supplier. I run a waxing salon and have been waxing for 5 years, using lots of different waxes and I feel Harley wax and their other products such as the oil and cleanser are extremely good!!

- *Bamboo Hair & Beauty*

We would highly recommend Harley wax service, our orders always arrive promptly and we love using the Harley wax as our treatments.

- *Zen Lifestyle*

Using Harley wax for the past 6 years in our Spa, we have had excellent feedback from our guests who love the pain free wax and lovely smells.

- *Arabella Hotel & Spa*

I received my samples recently and just tried the lavender hot wax. I must say this is the best hot wax I've tried to date. It knocks spots off ashmira & epiloderm and once I've used up what I have I'll definitely be ordering this.

- Karen Stallard

Very happy with the Harley Rose Hot Wax, it's easy to work with and kind to the skin, definitely less painful than other waxes I have used. My clients are always happy with the results and are amazed with how less painful it is. Good customer service and quick delivery is a bonus. Thank you, Harley Wax.

- Ritu Salwan

I am absolutely delighted with Harley Wax. The pre and post wax products are great and the wax itself is out of this world.
